UK Trade and Investment regional manager at Porto Alegre Denise Crawshaw-Pellin said: "The offshore clusters in the state of Rio Grande do Sul in southern Brazil are the number one target for investments and have become key in the supply chain of the Oil & Gas sector. Petrobras alone has invested over US\$10 billion in contracts for FPSOs, drilling ships and other equipment".

This networking event will be a unique opportunity for companies to learn more about the mission and to gain an understanding of the Brazilian market, in particular Rio Grande do Sul, and its challenges and opportunities. It will also enable our International Trade Team to shape the mission to your company's requirements.
